Whole Number 649

A Fitting Memento for Lady Willingdon.

On the termination of the term of office of Canadian governors general, it has been customary for the women of Canada to present to the departing lady a silk handkerchief containing some fitting memento of her life among us.

No doubt the desire to do this will be particularly strong in the case of Lady Willingdon who has shown such sincere interest in the women of Canada and who is personally known to so many Canadian women, even in the most remote parts of our provinces.

With this in view a committee has been formed in Ottawa under the direction of Miss Mildred Bennett with Lady Borden as treasurer.

Mrs Egbert and Mrs Brewster have been selected to take charge of the collection of the fund in Alberta. They realize that, owing to conditions, women may not be able to contribute what they would wish but would like to emphasize that any small amount will show a kindly spirit and interest and will be appreciated.

Will you please send contributions to reach Government House not later than Jan. 26th and payable to Mrs Egbert or Mrs Brewster. Acknowledgment of all subscriptions will be appreciated. Government house, Edmonton, and a full list of contributions will be sent the National Committee. Remittances should be made by marked check or money order.

Sporting Notes

Stonys' Stevens seem to be holding their own pretty good in the new league in which they find themselves this season. They are having the best record thus far now, when playing in the "Intercollegiate" league in which Mr. Holton placed.

There is a little hesitancy at present on the part of local agents to join the new SKR Club. The impression seems to prevail that you must be a citizen to be eligible. This is entirely erroneous, as the promoter says all you have to do is, put on the skin, jump off the hill, and let the law of gravity do the rest.

U. F. A. Notes.

As reported in last week's Sun, Stony Plain is to be the meeting place today Thurs. of a convention of the Stony Plain Provincial Constituency Position Audit of the United Farmers of Alberta. The convention will be held in Moose Hall. Mr. George Herrington, the well known authority on banking, will present a resolution from the Winnipeg Local dealing with the organi-

zation at the present time, and offering a solution which should be acceptable to the Government and others concerned. Mr. Donald MacLennan, member-elect for Stony Plain constituency, will be present.

Nothing more of the effort made last week to form a Wheat Pool local is known here. Mr. W. M. Washburn was present, but the small number in attendance did not warrant any action being taken.

At the meeting Thursday night of the U. F. A. Local Mr. Leo Herbert was elected as delegate to the Provincial Constituency convention being held here today.

The U. F. A. Convention at Calgary.

The 2nd annual convention of the U. F. A. and U. P. A. will be held next week in Calgary. On Jan. 20 Lieut. Gov. Egbert, Premier Brewster, Pres. H. W. Wood of the U. F. A. and others, will speak.

Many important business will be on the agenda for discussion. It is expected the wheat pool will be extended by districts at while among the important resolutions to be dealt with are:

The request that motor vehicle license be reduced; And another that a tax rate be struck on the horses, while the gasoline tax be raised to make up any loss of revenue from the reduction in the price of a barrel case of gasoline.

Highways, the marketing of crops and other matters of interest to the organization, will find a place on the program.

Submarine Grain Carriers For Future Is Visioned By Sir Hubert Wilkins, Explorer

Great submarine, carrying the grain of the prairie provinces across Hudson Bay, under the ice of Hudson Strait, and across the Atlantic some day will keep Churchill, Canada's sub-Arctic port, open all year round, Sir George Hubert Wilkins, noted British explorer, believes.

"I think large submarine grain carriers, of my 10,000 ton displacement, are the only thing if that Hudson Strait route is to be used properly," Sir Hubert told the *Canadian Press*.

Sir Hubert, who has sailed over the Arctic ice and walked on it, expects to prove that summer that it is no easier to go under it.

In his 375-foot submarine, "Nautilus," named after the craft in Jules Verne's "Twenty Thousand Leagues Under the Sea," he will attempt to travel 2,100 miles under the ice from Spitsbergen to the Baffin Bay. The "Nautilus" is now building at Philadelphia, Pa.

His boat has a crew of six and is to sail next year with what will be the maximum complement of 18 men, six scientists and a crew of 12.

While he has in mind primarily the acquisition of oceanographic and meteorological data, which among other things, will help weather forecasters, Sir Hubert believes the voyage will be valuable also as a demonstration that submarine operation under ice is really practicable. A new scheme of starting air liftsights for two and a half days, he believes, will enable him to show that submarine craft may be navigated for hundreds of miles without being brought to the surface.

"Of course," he said, "I don't expect to see submarines carrying cargo at once, but I do believe that eventually submarine will be necessary if Canada is to get the mail out of Churchill.

"With submarines," the explorer continued, "it would be possible to operate all year round," paid three or four months a year in the most that will be required of submarine craft. In addition to this, the operation of submarines would be cheaper because they would not require ice-breakers to keep channels open for them," he declared.

Mr. Hubert believes that the Dominion government, in building the Hudson Bay Railway had expected a saving of one-and-a-half to two years in transit to the shipping port of grain in European ports. He thought that the greatest saving of submarine grain carriers on the northern route would bring about a slightly greater reduction in the per bushel rate, factors offering a total saving in shipping cost three or four times greater than would be possible were Churchill kept open for only a few months each season.

Predatory Animals in the North

The measures adopted by the Department of the Interior to encourage the white and native populations of the Northwest Territories to destroy predatory animals continue to bring satisfactory results. During the past fiscal year, the money of wolf traps on which bounty was paid (at \$10 per wolf, the pelt being turned over the department) was \$88.

Mexico is to have a long coast-to-coast auto highway.

"You Indians had only a few animals, and you used to carry again."

"The wolf? You said there I will meet again?" — from *Human, Animal*

King's Special Present

Second Visit of Andrew to Opening of Indian Conference

A transcription of part of the speech which the King made at the opening of the Indian Conference in the Painted Gallery of the House of Lords has been sent to Washington. Public is a special guest in this case. The copper matrix of the King's speech has been sent to the British Museum to be filed away in the interesting collection of famous voices which are being preserved for posterity. In the British collection there are many of these voices which will be able to be heard in a thousand years time as well as they are today. Two of the survival— and they are photograph records—are of Lord Tennyson, Mr. Ford Madox, and Mr. Gladstone who made a speech in the House of Commons Photographic Committee in 1889.

BACK TO HOME

All "Topsy" models are created and sketched in Paris and the patterns are made in New York.

Not childishly but in a most sophisticated manner are we back to life. They are often part of our very newest frocks.

Today's pattern includes a very charming example. Here on a dress of red marocain crepe is a cream georgette bib. It is very simple to make, for two flat pieces gathered on the outer side are just stitched together along the curves and turned inside out—*et voilà!* a most professed effect. A ribbon either of the white georgette or red like the frock (piped edges or bound) can be fastened to the bodice and passed through holes as shown. The slightly shaped gathered pieces are very modestly placed on the hips and above the elbow are double and treated like the bust.

This pattern may be obtained in sizes 14 to 30. It is ready for immediate delivery. It is hand made.

Send 25 cents (in stamps or cash) to Fashion Bureau. Write clearly and plainly your name and full address, the number of the pattern and the size you want.

Canada's Wool's Last Great Feat

When the War Came and Wool Began to Disappear

Through the world in great distress, and the buyer and seller are sharply differing, Canada's Far West appears to be in the immediate danger of starvation. The state of affairs at a century ago when the value of the exports remained that of any other export has been vastly changed in the Dominion's state of progress. And in this age the export has increased tremendously and government officials at Ottawa say Canada may still be described as the last great far producer of the world.

The forward picture made by the far industry and the accompanying increase in exports might reflect in the fact that the source of supply is bound for early exhaustion. But the forward is now describing an ever larger supply base to help meet the demands of supply for a new crop or backlog. The total trade has played its part by purchasing excess and even previously surplus flocks, and by encouraging the use of domestic animal parts. In this latter category are the rabbit and the pony.

Experiments in the breeding of animals for meat resulted in the production of several valuable kinds. Chief among them is a goat which has resembles that of the Angora goat's character, and which, under the name of Angora goat, is increasing in high intrinsic value of the trade. Pigs for bacon, especially made from the meat of a "pig bacon" common to India, have a wide market throughout the world.

A Neglected Market

Opportunity To Develop Export Trade in Hog and Pork Products

Such is all the opportunity for Canadian farmers to develop the export trade in hog and pork products as afforded by figures with respect to total meat imports into Great Britain as compiled from H. M. Board of Trade Returns. For the first six months of 1938, bacon imports reached a total of 7,414,000 cwt., valued at \$10,407,000, and of this volume Canada supplied only 67,000 cwt., which had a value of \$400,000. During the same period imports of hams totalled 260,000 cwt., of which the United States supplied 112,000 cwt., or more than two times the 50,000 cwt., supplied by Canada. Unfortunately, these are the only two in a long list of dead meat import items in which Canadian participation was sufficiently considerable to cite separately—Department of Agriculture, Ottawa.

John—“Old man, you certainly have a wonderful vocabulary.”

John—“Yeah, I wish I were able again to could use it.”

Oddities Of Grain Situation Shown By Suggestions For Disposal Of Surplus Crop

Canada Colonization Association

Overseas Report Of West African grain marketed At Actual Wool

At the annual meeting of the Canada Colonization Association, held at the Royal Alexandra Hotel, Winnipeg, January 8, Colonel J. B. Turner was re-elected president; P. L. Macmillan of Victoria, vice-president; and the following directors re-elected: D. C. O'Leary, Winnipeg; C. T. Anthony, Vancouver; C. M. Morrison, Waterloo; James A. Macdonald, Winnipeg; J. M. R. MacMaster, Montreal; S. C. Porter, Calgary; G. W. Walker, Calgary, and W. J. Black, Wilson of Vancouver.

The annual report submitted showed a total of 4,197 families settled on 200,000 acres, the total purchase price being \$50,115,000.00; of this number 400 families were colonized on 50,000 acres during 1938. The purchase price being \$1,000,000.00.

A thorough check-up of families settled by the association since 1935 shows that only 12 per cent. failed. Colonel Denby stated at the close of the meeting, "Of considerable interest," he continued, "is that only 28 per cent. of the British families placed failed. The marked results with British families is due to careful selection and constant supervision."

All farms and families colonized were personally visited during the summer and fall by the staff of the association and checked under four headings: "A," successful and requiring further supervision; "B," on the road to success, still requiring supervision; "C," doubtful, still requiring considerable supervision and "D," failure.

While a large number of the families colonized were from Great Britain, northern and continental Europe, the settlement services of the Canada Colonization Association, as Mr. E. W. Boddy announced at the business last fall, have always been available for Colonization of agricultural experience and training, who wish to take up farms and follow agriculture as a permanent vocation.

In the province of Manitoba, 1,312 families are settled on 200,000 acres. "The work of the association covers the provinces of Ontario, Manitoba, Saskatchewan, Alberta and British Columbia and is maintained as a subsidiary of the Canadian Prairie Department of Immigration and Colonization," said Col. Denby.

T. G. W. Horner was re-appointed manager and A. E. Lovell, Secretary-treasurer.

Colonies of 40 grain farmers in the prairie provinces are however, and the many suggestions for the disposal of the surplus crops ran the gamut from a \$1,000,000 purchasing plan to the construction of a large dam to hold back a reservoir in Alberta.

With the price of wheat changing from \$1.40 a bushel value of a year ago to the 20-cent level of today, agriculturists in many areas have found substitutes for the use, preventing greater monetary reward than ordinary marketing.

The greatest use and the one likely to bring the most rapid monetary return, is the building of feedstock for market. When high values prevail, operations were carried to sell "hunker" cattle, which were fattened by the buyer. Today they are feeding oats and barley and fattening their cattle and hogs ready for the scales of the stockyards. Thousands and thousands of bushels have been dumped to be fed this way.

Some prairie districts have abundance of grain, but lack feed and money to buy it with. They have found a substitute for the cost of oats and the products of the forest areas of Manitoba by buying hogs—now at the lowest level in history—to the same feed as cattle. A hundred a day in the consumption of the hogs, and "it makes money," is the comment of one man.

The latest suggestion comes from Calgary, where a "grain products relief committee" has been established. Colonization of grain will be sought in rural areas, and with the exception of wheat, it will be grown for the use of the city of Calgary and district. Already several thousand bushels of wheat and oats have been donated.

The idea still has some kick to Manitoba communities. Farmers in the prairie years purchased their flour from the town grocer, now they are buying their own grain mill and the little community mill—closed for a decade or more—is in business again.

Another suggestion was the "construct a hotel of wheat in the steaming Chinese," but including graduated effort, it remains "just a suggestion." Now in many other places to relieve the burden of the miller of the oil.

For Sewer Control

Find That Hot Water Treatment Controls Litter Sewer

The modified hot water method for the control of litter used in wheat has been found effective and satisfactory in experimental work conducted at the Indian Head Experiment Station of the Dominion Department of Agriculture. This method consists of placing the grain in loosely woven sacks and then soaking it in water at 104 degrees Fahrenheit for four hours to soften the seed and prepare it for the action of hot water. The grain is then transferred to water at 113 degrees Fahrenheit for fifteen or twenty minutes and next into water at 120 degrees Fahrenheit for another ten minutes. This last treatment is very important and should be carried out with the greatest care throughout, when the grain is finally removed from the hot water. It may be plunged into cold water for a moment and then spread out to dry, but being taken to fast it does not germinate or sprout.

"What does Captain say now?"
"Well the Captain has to prove today."
"Yes, he married our cook, and now my wife wants me to bring you some
blackheads."

Common Gratitude

Compte Tribune.

Mr. Victor Hill, of Thornton Heath, writes:—"For many years I have suffered with that distressing complaint—constipation, and its attendant effects of sick-headache and indigestion. It was a red-letter day for me when a friend recommended me a treatment of Carter's Little Liver Pills, and I can honestly say that results have been truly marvelous. I now enjoy good health and feel that life is worth living. The relief I have experienced compels me to add my sincere tribute." Take Carter's Little Liver Pills. All druggists 25¢ and the red pills.

WORLD HAPPENINGS
BRIEFLY TOLD

The winter cruise of H.M.C.S. Vancouver started on January 26 to the foreign ports of the Pacific Ocean.

Television will be a commercial proposition within five years according to Major-General Marboard of the Radio Corporation of America.

Canadian art will be exhibited at the British Empire Trade Exposition at Buenos Aires in March and April, 1931.

Deer have become such a pest in certain parts of New Zealand that plans for their extermination have become a difficult problem, and many remedies have been suggested.

For the first time since it was dedicated in 1758, the Mansion House, home of the Lord Mayor of London, empty, city officials having moved to a hotel while the building is being modernized.

From the land of the midnight sun in Alaska to the pampas of the Argentine will be the route of the international highway now being projected by governments, good roads associations and automobile clubs of the countries concerned.

The authorized fish catch in Saskatchewan lakes, large and small, approximates 10,000,000 pounds a year, according to estimates of the Department. Approximately 1,600 men were employed in Saskatchewan fisheries last year.

Elk, which roamed in countless thousands over the northwest years ago, and which have since been reduced to a few scattered herds, will be given a chance to multiply again on the wild lands of the Queen Charlotte Islands, far from the hunter's trail.

Just Right
For Upset Stomach

For after-meal distress, gas, cramps and bloating, the quick and positive neutralizing action of Bittered Magnesia has proved to be just right. Bitter, certain and gratifying, almost instantly follows the very first dose—and a few cents worth obtainable from any good druggist, lasts for a long time.

New Industry

Manitoba To Manufacture Protein, Casein Foundations and Honey Extracts

As a result of the investigations made by the special committee of the Industrial Development Board of Manitoba like the Manitoba honey situation, Manitoba is to have two new industries. One is the manufacturer of caseins, which were previously purchased in the east, and the other is the manufacturer of casein foundations and honey extracts.

SUNDAY SCHOOL LESSON
JANUARY 14

THE HISTORY OF JOHN THE BAPTIST

Golden Text: "Bring forth fruits worthy of repentance." Luke 3:8.

Lesson: Luke 3.

Devotional Reading: Isaacs 40:9-11.

Scripture and Comments

John's Preaching in the Wilderness, verses 1-6.—To John, son of Zacharias, the word of the Lord came (he was made conscious that this was God's plan for him), directing him to go to the Jordan, and preach the baptism of repentance unto the remission of sins; thereby, says Luke, fulfilling the words of Isaiah (Isaiah 40:3-5).

"John baptised, that is, he used a purifying rite in connection with his preaching. It helps to remember the distinction between baptism as practised in the Christian Church, and as practised by John. In the church baptism has come to be regarded as a dedicatory rite by some, and by others as an initial, and confessional rite. But in the first use of it, by John and Jesus, it was a purifying rite. It was a confession, too, of sin, and the need of cleansing, not, as later, of faith in a person, or a creed, although it did imply acceptance of a man's leadership. To a Hebrew mind it was leadership by symbol as well as by word."—H. D. Gordon.

The Call To Repentance, verses 7-9.—Our poet Lowell speaks of "A kind of meekness John the Baptist.

To whom the hardest wood comes easiest."

And harsh indeed was John's word to the multitude who came to him to be baptised: "Ye offspring of vipers," was the way in which he addressed them. Vipers and serpents were considered emblems of deceitfulness and wickedness; John called Pharisees and Sadducees by this term because, knowing their natural deceitfulness and cunning, he doubted the sincerity of their motive in coming to him. And he questioned them: "Who thought it worth while to warn you to flee from the Day of Judgment?" The phrase, the wrath to come, recalls the picture of serpents in the fields fleeing before the flames when the stubble is set on fire. The coming of the Messiah was expected to be a day of judgment, Luke 2:33. Since the Pharisees thought themselves so righteous, they should not have feared the judgment; since the Sadducees professed not to believe in it, they should not have been disturbed.

"Bring forth therefore"—if you would escape the wrath—"fruits worthy of repentance," decide that will prove the sincerity of your re-pentance.

"A new life is the best and most sublime penitence."—Martin Luther.

The Oil For the Athlete. — In ruling down the athlete will find Dr. Thomas' Electric Oil an excellent article. It renders the muscles and sinews pliable, takes the stiffness out of them and strengthens them for strains that may be put upon them. It stands pre-eminent for this purpose, and athletes who for years, have been using it can testify to its value as a lubricant.

FRANCE PAYS FINAL TRIBUTE TO WAR HERO

Paris, France.—France, in a silent tribute of love and respect to the "Savior" of Paris, gave Marshal Joffre a national funeral which is the grandest, reminiscent of that "Day of Atonement" when the body of Napoleon Bonaparte was brought back from St. Helena.

The body of the victor of the Marne, like that of Napoleon, under the great dome of the Invalides, in a dimly lighted crypt of the Chapel of St. Louis, dedicated to the old crusader king. It was placed there so that Madame Joffre might pay her last respects.

Some months from now the body will be transferred to "Chesternut Grove," the marshal's country home, where it will be entombed in a mausoleum.

Church and state waited to make the last rites of France's loved soldier a full expression of the Republic's gratitude and respect. The thousands of French people who filled the gray old cathedral of Notre Dame and the millions or more who lined the route of the cortège from the cathedral to the Invalides testified abundantly the love that Paris bore for "Papa" Joffre.

There was not a foot of standing room at Notre Dame when the arrival of President Doumergue signalled the beginning of the Papal Mass, shortened at Joffre's own request. The highest officials of the government were here in numero-parks and representatives of many nations, many of them attending as the personal representatives of rulers and sovereigns. Mousignier Joseph Marie Tissier, Bishop of Achères-Sur-Marne, read the absolution and gave the final blessing.

Outside in the square in front of the cathedral the cortège formed. Republican Guardsmen in the lead. On either side of the column marched a company of infantry, and behind, after the marshal's immediate family, marched the president, members of the government, and the diplomatic corps.

An orderly-led "Bouche," the marshal's horse, caparisoned in black.

There was intense silence as the cortège moved slowly up the Rue de Rivoli to the Place de la Concorde and the Grand Palace, where it turned and crossed the Alexander III. bridge to the Great Square in front of the Invalides. There Louis Barthou, Minister of War, paid the government's eulogy.

He hailed Joffre as a "saviour of world liberty" and said that he was to "voice the unanimous gratitude of the nation."

After the funeral oration the marshal's body was borne solemnly to the sacristy where it will remain until the mausoleum at Les Invalides is ready.

Mourning for Marshal Joffre was expressed in all the theatres which remained open. Simultaneously in each, at 8 o'clock, an actor appeared on the stage and read the marshal's famous Marne battle order of the day in which he called on the French army to die rather than retreat. A minute's silence was asked, and as it ended the orchestra sounded Taps.

Shipping Into Del. Vancouver

Vancouver, B.C.—Final figures of deep-sea shipping into this port in 1930 are now completed by the Vancouver Merchants' Exchange and show a total of 1,386 arrivals, of 4,474,326 net tons. This is a reduction as compared with the two preceding years. In 1929 the total was 1,325 vessels and 4,666,442 net tons, and in 1928 it was 1,325 vessels and 4,666,442 net tons.

Reduction in Prices

Ottawa, Ont.—Hon. G. D. Robertson, Minister of Labor, expressed satisfaction at reductions in the price of commodities, including breakfast foods, that had been effected recently as a result of representations made by the labor department. The probe being conducted by the department under the Commodity Investigation Act has the pace of trend to be expected to be accelerated shortly.

Canada Scholarship Fund

Montreal.—Subscription of \$200,000 is now being made in Canada and England, to be known as the "Canada Scholarship Fund," to bring British public or secondary school graduates to Canada for their university education and subsequent entrance to Canadian life.

Canada's allotment of the fund is half of the total, most of which has already been pledged upon condition that a similar amount is raised in Great Britain, according to an announcement made today at McGill University.

K. W. Beatty, K.C., is the chairman of the Canadian committee which also comprises Mr. Arthur Currie, principal and vice-chancellor of McGill University.

Brig.-Gen. V. W. Orton, of Vancouver, and Dr. H. C. Wallace, president of the University of Alberta, are members of the committee.

Postponed Flight

Amy Johnson, British Girl Flyer, Will Await More Favorable Weather

Warsaw, Poland.—Amy Johnson, the British girl flyer, has postponed her flight to China until more favorable weather, which she does not expect to have before spring.

She will leave Warsaw by train for Moscow, where she expects to meet Soviet persons interested in her attempt and hope to get full information necessary for her flight across the Ural Mountains and Siberia.

She expects to return to Warsaw this week, by which time her plane, damaged when it was forced down at Amaria, near here, will have been repaired.

FIVE ITALIAN FLYERS KILLED IN TAKE-OFF

Elmina, Portuguese Guinea, Africa.—Five Italian aviators died and three others were injured at the start of the great aviation adventure which carried 10 seaplanes safety from this point on the West African coast to Brazil.

The Stefano News Agency, official Italian press service, said that two planes crashed shortly after the take-off.

Two others which were forced to land on the ocean, while General Italo Balbo, took the ten remaining ships safely into Natal, were taken in charge by Italian naval vessels. The Stefano Agency said both were expected to be towed to Fernando Noronha, Brazilian penal island, not far from Natal.

This official announcement by the Stefano Agency clears up the confusion which has existed since Gen. Balbo and his ten ships returned to rest at Natal after a speedy trip of 17 hours, 15 minutes yesterday. First reports said that 12 ships left Balboa with two of them landing at sea en route, but later despatches from various sources, asserted that two had not been able to take off. The official report shows that 14—two of them were repaid and replacement units not scheduled to make the trip originally—took off.

Of the two which met disaster, Captain Romagna took up one from the water, but it dove sharply after reaching an altitude of only about 50 yards. The man killed, a sergeant-major acting as mechanic, was riding above the right position, which was shoved upward and crushed when the plane dropped to the surface. Captain Romagna, another officer acting as co-pilot, and the radio operator, were injured.

The other unfortunate plane, commanded by Captain Berti, "flew all right" for about 10 minutes after the take-off, but suddenly ran into a headwind at full speed.

It sharply did the heavy biplane dive down upon the ocean. One observer got out and learned to float the two survivors. Captain Berti, Lieutenant Bartolini, Sergeant Modesto Nocita, and Radio Operator Bartolini. The accident was attributed to the extremely heavy head wind.

Marshall Joseph C. Joffre

Marshal Joseph C. Joffre, noted hero of the first battle of the Marne, who died after a short illness in the hospital of St. Jean De Dieu in Paris.

Saskatchewan Village Has Disastrous Fire

Winnipeg, Manitoba.—The explosion of a bomb leaves the village of Mayfield, on the new Speers-Habell Lake branch, northwest of Saskatoon, with most of its business places in ruins. Before the fire could be checked two general stores, the Bank of Toronto building, and a Chinese restaurant were gutted. An early estimate sets the damage at around \$30,000.

David Cannings was about to retire when the explosion of a bomb in his store quickly spread rapidly and despite desperate efforts of the villagers who worked a bucket brigade, F. W. Alford's store and post office, the bank and restaurant were enveloped in flames. Without any fire equipment the villagers tore down an implement office and so stopped any further spread of flames.

Mayfield, which is 22 miles north of Speers, was established only two and a half years ago when the new branch line went through that territory.

London Services For Joffre

London, Eng.—Cardinal Bourne, archbishop of Westminster, officiated at a requiem mass for Marshal Joffre, at the same time services were being held for the marshal in Paris. Representatives of the Prince of Wales, the Duke of Connaught and other distinguished persons attended.

Toronto, Ontario.—An interesting career that included service in the metropolitan police, London, England; at one time personal body-guard to the King and for the past 25 years a guardian of a local financial institution, is recalled by the retirement of George Cuddy, at the age of 84.

1930 All-Lines Champions

W. T. Warren (left), captain of the Toronto Freight Office Team, and Tom of the Canadian Pacific Railways, receiving the Lord Strathcona trophy from W. M. Scott, general manager of the railway's western line. Toronto Freight Office was the overall trophy winner in division of teams. Tom, championing, won the trophy in December. The transcontinental trophy is emblematic of the Canadian Pacific passenger train and championing and was last year by the C. P. R. Police team.

Demonstration Train

Agricultural College Positive Steps Carried To Farmers by C.P.R. Train

Winnipeg, Man.—With a view to carrying a series of agricultural facilities to the farmers of North Western Saskatchewan, the Canadian Pacific Railway in conjunction with the extension department of the college of agriculture, University of Saskatchewan, is supplying, equipping and providing demonstration and lecture cars especially dealing with poultry and dairying.

Under the supervision of W. J. Doyle and C. K. Thomas of the University of Saskatchewan, and three lecturers, the train left Saskatoon early Tuesday, January 20th, for the first meeting at Batoche, the same day. The train consists of demonstration and lecture cars, the former containing materials for demonstrative purposes for agriculturists interested in poultry and dairying. No live stock or seed to bring carried for sale.

A wide range of topics will be discussed, care of poultry, heat housing methods, killing and market preparation and, in the dairy section, care and feeding of milk cows, making a cow pay her store bill, testing cows and handling milk and cream.

The train will tour the whole of North Eastern Saskatchewan served by Canadian Pacific trackage and will travel as far west as Bredenbury and Inverno Man. January 21, will journey via Goulet as far north as Nipawin. Leaving Nipawin January 22nd, the train returns to Lethbridge via Lethbridge, Wynyard and Dugald February 1. Leaving Lethbridge February 2nd, the tour leads as far as Grandin, February 13, returning to Gowan February 17th, and travelling south via Dugald, Strasbourg, Bulyea, Belcarra, Nester, March 4, to Stockholm, thence back via Imperial and Beausejour, concluding the tour at Young, March 18th.

Provinces Pay Five Per Cent.

Ontario Assesses Bulk of Cost of Old Age Pension

Winnipeg, Man.—The Dominion Government in future will pay 95 per cent. of the cost of old age pensions, it was revealed by John Bracken, premier of Manitoba.

Mr. Bracken in commenting on the western provinces' contribution here with Prime Minister R. B. Bennett, disclosed that assurance had been given by Mr. Bennett that the provinces would be called upon to pay only 5 per cent. of the old age pension charges as compared with the 50 per cent. now contributed.

Plane Links Pacific Coast

Wellington, N.Z.—Guy Mottershead, young Sydney aviator, made the first night flight between Australia and New Zealand. He took Charles Kingsford-Smith's "Southern Cross Jr." over the 3,200 miles between Sydney and Wellington in 13½ hours. He came down in a swamp near Rotorua, damaging the plane slightly.

A MEASURE OF HOME RULE FOR INDIA PROBABLE

London, England.—India, Manchuria and Mongolia of India, have joined in support of the actions of home rule for India, which was laid before the Indian National Conference some days ago by Sir Tedder Balfour, Sir. The same plan, in its essentials, was adopted by Lord Balfour on behalf of the British Indian delegation, and was received by the British Commonwealth delegation with great enthusiasm.

George Jones, president of the European Association of India, before the conference, described the present government of India as hopeless and humiliatingly weak. The country was drifting into chaos, he said. He could see no way out but to give a larger measure of responsibility to the Indian legislature.

Sir Bapendra Mitra, one of India's leading financial experts, thought no greater safeguards should be imposed on the Indian government than were imposed on Canada when she was created a Dominion. Sir Bapendra, indeed, termed the new administration "the Dominion government of India."

M. A. Hume, a prominent Indian barrister, declared he was under no misapprehension that India was not going to get either Dominion status or full responsible government. He strongly argued, however, that none of the proposed safeguards were necessary.

"It is very commendable to England," Hume added, "that we want either rule India or get out." Let me tell you, you can either rule India or get out. Are you going to meet the situation that has arisen in India or not? I say that it will indicate an other bankruptcy of British statesmanship if you do not meet the situation before you leave."

Jones criticised the attitude of Sir Samuel Hoare, the Conservative spokesman. "Sir Samuel said that he would take a non-committal attitude. That was the only contribution he could make to the discussion," he said.

The situation in India was thus summed up by Hume:

"There is the problem in India. One strong body stands for complete independence. Another small body stands for dominion status. Now we have come to you and we say: Are you going to agree to that measure of responsibility which will win over to your decision the large body of these politically united people, so that they will say 'Now we have got something which is worth supporting; now we have something to stand by'?"

Sir C. P. Atkinson also pleaded for responsible government, saying he believed the Viceroy should have power to govern in case of a complete constitutional breakdown, but that the ordinary machinery should be left to handle the situation otherwise.

Sir Sultan Ahmed, Indian barrister, expressed hope that the British Conservatives in India would come to agree with Lord Balfour, Liberal spokesman, in a recognition of the Indian scheme of responsible government. He also declared the Indian response to Lord Balfour's speech had been electric, and Balfour had been particularly pleased.

Wynn refers to Lord Balfour, the newly-appointed viceroy, for his attitude while Governor of Madras nine years ago, was paid by Sir C. P. Atkinson. He pointed out that Lord Balfour had taken all the initiative and the legislature into his confidence, and as a result had secured their willing co-operation.

British Sailor Wins the Trophy

Portsmouth, England.—The British Yachtman "Winton" has started on a series during which she will visit the United States first of all. Portsmouth, February 20.—The "Winton," skipper Michael Madigan, will have a special programme of visits and battleships and visited the Street Circuit. Winton has over 1000 miles of racing to complete.

Winton has won the trophy and the trophy will be given to the C. P. P. Police team.

Gets New Post

For years of railroad experience have singularly fitted George Miller, assistant general manager Western Lines, for the post of manager of the Canadian Pacific Railway's new Department of Personnel. He is one of the best known and most popular railroad executives on the American continent, has been the company's spokesman in labor meetings on a number of important occasions, and was mentioned prominently in the auto presentation of the officials at the time of the Alberta award. He is a Mississauga, and has, with the exception of 2 years in London, Ont., no railroad experience, always had his headquarters in that city.

Capt. Gibson Assumes Mount McDowell.

Capt. Gibson, president of the Edmonton branch of the Canadian Alpine club, spent the last week in Jasper. Accompanied by Joe Wales, he made a trip into the Tonquin Valley on skis, during which time they made the Memorial Hut on Penstock creek their headquarters. They made the ascent of Mount McDowell, which is believed to be the first time a major mountain in the Rockies has ever been climbed in winter.

Capt. Gibson is well known in this and Spruce Grove districts, as he owns a farm on the Barlow, just east of the Grove.

Said She.

Customer—Excuse me, madam, but you haven't yet paid me for that turkey you got at Christmas.

Customer—No, my husband sprained his wrist so badly while carrying it that he has not been able to write out your check yet.

Stony Plain and District

Mr Philip Kuehne, who has been in Chicago the past week, as a delegate to the Walker League conference, is expected to reach home today.

Mrs Fred Burkhardt returned on Sunday from a visit with friends at Cochrane.

Mr "Bob" Sutton, of the local bank staff, was transferred this week to the One-way branch.

Mr and Mrs J. Kherhardt, Edson, have been visiting relatives in this district, the past week.

The ratepayers of Stony Plain S. D. will meet in the town hall on Monday next. Those who expect to attend will read with interest their articles on page 8 issued by the Dept. of Education, on what the proper qualifications of a high school teacher are.

The officials of the Glee club have been prevailed upon to give another of their popular dances. The date has been set for Friday, Jan. 23. The dances heretofore given by this club have been rated delightful affairs, and this one promises to be a winner, also, as something new in the musical line will be heard.

The Lutheran services in English will be resumed at St. Matthew's schoolhouse by Rev H. Kuring, on Sunday next, Jan. 18.

The Seniors Are Victorious.

Our Stalwart senior back, exists gave a fine exhibition game at the local rink Thursday night which was a pleasure to see. The Stalwarts were out in full force, had their very best men on ice, and resolved to do or die. The magnificent rushes of "Bobby" Downe were a great treat for the hockey fans, and his efforts were applauded by all those in the grand stand as well as those on the bleachers. Mr Downe's good work was backed up by the stupendous manœuvring and tricky stick work of Messrs E. Clark & Ziehl and the rest of the Senior quintet; not forgetting the good work of their goalie Louis Miller. The Senior team showed a commendable generosity in the first period and refrained from scoring; but later scored three goals which it would have been sheer nonsense to have refused.

Their opponents, the town's boys, had signed up, as a goal-keeper, the remarkable "Hill" Bonner and his copyrighted passes for the game; but, as Bill failed to show up, it is thought he had been spirited away by those who didn't wish him to play that evening.

Motto of the Juniors: "Till We Meet Again."

Calendars

January—
18—U. P. A. Convention at Stony Plain
19—Dance at Cochrane, North's
20—U. P. Provincial Convention at
21—Ole Cob's Dance at Moose
22—Dance at Kettner Hall
23—Mile Lake Community dance
24—Legislative session
February—
2—Concert at Moose Hall
13—Concert at Mile Lake

At Caledonia, Jan. 18
At Osway, Jan. 25

Junior Hockey.

Stoneway's Juniors celebrated the opening of this new league Jan. 8 by winning the game from Caledonia by the score of 3 to 1. The Juniors are now playing as good hockey as the local railbirds have seen here—the "hard" tennis seems to go down the easiest, before their good playing.

Mr E. Clarke was in goal for the home team, and Eddie had a busy sixty mins. keeping the puck out of the chicken wire. The 3 goals were scored—one each by the forwards, J. Miller, A. Wilke, & Tripp.

Sunday was Goose-Egg Day

Sunday hockey played on the 11th didn't bring much luck to Stony's two teams, as each on its away-from-home game was goose-egged. The Seniors received theirs on their initial trip to St. Albert, the Juniors scoring 2 goals.

The Junior team had its troubles down at the Winterburn mini-tone hockey rink, where the blue lines are said to be about ten feet apart. Stony never had any luck on this blanket-size skating area, and Sunday was no exception. Winterburn scored 2 goals.

The Seniors played at Merriville last night but the score is not available at press time.

The Juniors tangle again with Winterburn tonight; this game to be played at the Stony rink.

Hansen's Corner.

Every ratepayer in Hansen's Corner S. D. turned out for the annual meeting on Saturday. Big Dan was the trustee elected by the largest vote ever polled at Hansen's S. D., he beating his opponent 19 to 7. Mrs Agnes Hansen was elected secretary. Mrs Hansen is a graduate of the U. of A.

Mr Harry McDonald expects to move to the Coast in the near future.

Mr Corrigan has the contract for supplying the firewood required at the school house.

On Saturday night the U. P. local held a meeting in the schoolhouse, and it was packed to the doors. A discussion took place on road problems and the re-surveying of lands in this division. A delegation from here will interview the Government in the near future concerning these problems.

The date of the U. P. convention here has not been made public, but it promises to be a stunner when the doors are thrown open to the public.

Mr Ben Erickson last week scored a coyote which measured over 6 ft. from tip to tip.

Walter Allen has the land clearing camp starting in the district, on his land, and vicinity.

Mr O. Y. Young is expected back shortly, from his trip to Nova Scotia.

Here and There

Forty years of service with the Canadian Pacific Railway have earned recognition in the appointment of George Dodge, assistant general manager, eastern lines, to be manager of the newly-created department of Personnel of the railway, announced by Grant Hall, vice-president of the company recently. Mr Dodge was especially selected for the appointment in view of his wide experience in labor matters and his particular flair for arbitration and industrial activities. He was especially to the Rockwood at the time of the Rockwood strike when his presentation of that situation created unanimous praise in Canada and the United States.

Lithographs of a large entry from the Prairies for the third annual Imperial Hotel Winterburn golf tournament to be played at Victoria Gold Club February 13-15 is indicated to reporters, proving to have leading members of the Prairies. Last year the nearest foreign competitor did leading men and women golfers of the North Pacific and the Prairies and it was the golfers who won the trophy by carrying off important portions of the silverware against the best golfers of Victoria, Seattle, Vancouver, Victoria, Portland and Victoria.

From the opening in 1911 of the New Imperial School of Agriculture, 154 persons have attended the annual fall short course in practical agriculture. Admissions to the 1912 course, which closed November 14, were not largest on record, the number of students registered being 36, but of these 1000 members of young people's business and poultry clubs. The other 26, for general proficiency, was awarded to George E. Colpitts, of Park City.

On this is the quality of the best prairies by some claim and a comparatively new variety produced in Canada, that during the past five years between 20,000 and 30,000 pounds of the seed have been exported to the United States each year. The best quality is produced in Prince Edward Island and is used for lawn, pasture and vegetable gardens.

Wool market totals in the Northwest from the United States was 44 per cent greater in 1912 than in the previous year, this percentage of increase in market value being the greatest shown by any province of Canada during that year. It is claimed by the New Brunswick Government Bureau of Information and Trade, Value of the trade is placed by independent estimates at \$6,000,000 in 1912 which would have been fully maintained if not up to \$6,500,000 in 1913.

One hundred green-tinted deer skins were recently shipped from Vancouver to New York, being the largest shipment of skins that has been made from Canada to the United States per cent of the skins were Belding's and the balance Douglas and Roosevelt.

The British is not being supplied by the breeder and seller out in Canada where there were in July 1912, 1,000,000 lambs on Canadian farms compared with 3,000,000 in June 1912, a very marked change in a decade. Canadian sheep in Alberta and Saskatchewan are said there to be numerous and marked increase in the last few years, which according to the latest statistics, is 100 per cent in the District of Alberta.

University Now Training High School Teachers

The students who graduate from the School of Education next session will receive high school teacher's certificates. These certificates are being issued to replace the academic certificates formerly given in this province. If the academic certificate is retained it will be given to qualified high school teachers from other provinces whose training has not been exactly equivalent to that given by the School of Education.

Stated boards will note that teachers holding abroad and from other countries have been trained for elementary school teaching and that the only adequate certification for high school work is the High School Teacher's Certificate.

Something Worth While

To provide a little incentive for the boys in Civic hockey leagues to start their stall a few in War milles, according to the Stand and, is offering a Royal York maul to the player with the highest scoring average: a maul of \$100 on a maul to a defense man with the highest scoring average, and a maul of \$10 on a maul to the goal tender with the lowest average of goals scored against him.

Hockey News.

Our Senior hockeyists played at Nansen on the 7th Jan. Score Nansen 2, Stony 1. The first goal was scored by the Miners in the first minute of play; and practically from the face-off. No more goals were scored by either side until the 3d period, when Robote scored for Stony. This tied it, and a maul was played without breaking the tie. Nansen took a goal in the 3d overtime period, winning the game. These teams come together again at Nansen, Mon., next, Jan. 18.

Bright Book Bricks

A party of Gobblers from this district tried their skill on Chip Lake and Lethbridge creek last week and returned with a mixed lot of jackfish, bullheads, pickerel and ling—186 in all. One bullhead tipped the scales at 19 lbs.

A surprise party was given Mr and Mrs August Krye the evening of Sat. Jan. 3d. Bridge, singing and dancing were the chief pastimes indulged in.

Hudson's Corner U. F. Local is arranging to put on a mineral show in the near future. The costumes are coming from New York and the two end men from Fisher.

Miss Lena McDonald, who is teaching school at Wainwright, returned to her duties last week, after spending the holidays with her parents Mr and Miriam McDonald.

Our local prophet says: "Mark my words! There are hard times ahead for the small grain farmer."

Dickold Delights

The regular monthly meeting of the local branch of the Women's Institute will be held on Tuesday next, Jan. 10th, when the program will include, in part, of a paper being given by a member on "The Woman as a Trustee." A contest, Roll Call—A Notable Event in the Year Just Past." The payment of dues. The hostesses to be: Mrs. Dale Taylor, Mrs. Perry, Mrs. Dugill.

Chevrolet Scores a Hit

Introduction of the 1931 Chevrolet through Canada last week gained a genuine reception. A big, bigger and more beautiful car at lower prices seems to describe the new Chevrolet, and it is felt that it will be even more popular than ever in the low price field. The distinctive design, which is an addition to the line, is receiving a great deal of praise for its smartness. The 5 wire wheels are standard equipment and have a popular appeal. The initial demand for the new Chevrolet has been good.

Church Services.

On Sunday eve, Jan. 10. English
Lenten service at St. Matthew
Gethsemane at 7:30 p. m. by Rev.
W. E. King.
United Church service every
Sunday eve, at 7:30.

United Church Notes

On Sunday last there was well
attended service at all points.
The sermon was from Luke 13:33.
"For ye are little flock, for it is
your Father's good pleasure to give
you the kingdom."

At Nansen a social evening is
being arranged for. This will be
held early in February.

Board at the Court.

Magistrate—You are charged
with being drunk and disorderly on New Year's Eve.
What's your name?
Prisoner—Alfred McDonald or
Donald Angus McDonald.
Magistrate—Oh, just who gave
you the whisky?

Railway Time Table

Going East—Every morning at
6:30.
Going West—Every midnight
at 21:15.

Schedule of Mills.

From the East—Every midnight
except Saturday.
From West—Mon., Wed., Friday
midnights.
To the East—Every morning ex-
cept Sunday.
To West—Sun., Tues., & Friday
midnights.

WHY SUFFER FROM HEADACHES?

Take in and around the eyes!
The right remedy stored in your
eyes will quickly relieve you and give
you comfort.

Glaser's Formula Drops—
Fifteen dollars a quantity box.
That is the charge. Those paying it
in \$10 for anermint will then
get \$15 to \$20; but you do not
see the logic of this; you want more
than glasses.

New Chevrolet Bigger and Finer

CHEVROLET 1931 MODEL

Here is what the new Chevrolet looks like at our standard equipment. Upper right shows the changed front view, the higher radiator, the chromed tie-bar which carries between the front fenders, and the new hood mounted below the left headlight. Prices of the new Chevrolet are lower than those at which the 1930 model was introduced.
